

dfsched.c

repl.c

dfsched.h

```
graph TD; A[dfsched.c] --> C[dfsched.h]; B[repl.c] --> C;
```

The diagram illustrates a dependency relationship between three files. At the top, two white rectangular boxes with black borders contain the text 'dfsched.c' on the left and 'repl.c' on the right. Two blue arrows originate from the bottom center of each of these boxes and point downwards towards a single black rectangular box at the bottom containing the text 'dfsched.h' in white. This visualizes that both 'dfsched.c' and 'repl.c' depend on or include 'dfsched.h'.
